## FORMER GOV. - GEN. OF CANADA DEAD

The Duke of Argyll, son-in-law of the late Queen Victoria, and former governor-general of Canada, died last Saturday night at Exmouth, Isle of Wright, aged 69.

John Douglas Sutherland Campbell, ninth Duke of Argyll, and possessor of many other hereditary titles, was born at Stafford house, London, August 6, 1845. He was the son of George eighth Duke of Argyll, who died in 1900; a statesman who held office under several administrations, and who was the author of several scientific and political works. In early life the future duke was known as the Marquis of Lorne.

He was first mentioned as governor-general of Canada when Sir John Young retired, but it was then considered more expedient to appoint Lord Dufferin. When the latter's term of office expired in July, 1878, the announcement was made that the Marquis of Lorne would be appointed to the office by Lord Beaconsfield. The appointment was hailed with satisfaction in all parts of the Dominion, and a great deal was made of the coming of a royal prince to Rideau hall.

The Duke of Argyll, son-in-law of the late Queen Victoria, and former governor-general of Canada, took a great interest in the province of Alberta. In fact, it was he who named the province. In naming this province, the duke chose the same name of his wife, Princess Louise, Queen Victoria's daughter. He wrote a poem on the naming of the new province as follows:

ALBERTA  
In token of the love which  
Thou hast shown  
For this wide land of freedom,  
I have named

A province vast, and for its  
beauty famed  
By thy dear name to be known  
Alberta shall if be. Her foun-  
tains thrown

From Alps unto three oceans,  
to all men

Shall vaunt her loveliness ev-  
er now; and when

Each little hamlet to a city  
grown,

And numberless as blades of  
prairie grass

Or the thick leaves in distant  
forest bower.

Great peoples hear the giant  
currents pass;

Still shall the waters, bringing  
wealth and power,

Speak the loved name—land of  
silver springs,

Worthy the daughter of our  
English Kings.

## ORIENTALS BARRED

Vancouver, April 29.—Aspects of all races will be barred from entry into Canada under a new interpretation of order in council No. 897, details of which were made public today to representatives of the Trans-Pacific lines by Malcolm R. L. Reid, superintendent of immigration. The new interpretation has made the order in council applicable to Chinese, Japanese and Hindus, and will become effective on May 31st.

The record of production by provinces shows that the relative importance of the several provinces is practically in the same order as last year. On-

## BUREAU OF INFOR- MATION FOR EDMONTON

While in Edmonton last week W. C. McCormick, president, and W. C. Gorham, secretary of the Mirror Board of Trade, attended a luncheon and conference in the Empire hotel, given under the auspices of the Edmonton Industrial Association. About five hundred sat down to the luncheon, the majority of whom were members of the Edmonton Association, while eight Boards of Trade from surrounding towns were also represented. An address was given by Mr. Stevens, Commissioner of Live Stock for Alberta.

A conference was then held in the Empire parlor, and several addresses were given, in which the benefits of the proposed industrial bureau were outlined and explained.

The scheme in short, is to rent a store, or more if necessary, and each district going into the proposition will be allotted a certain amount of space for an exhibit of the products and other natural resources from that particular district. Each district will also have the privilege of listing farm property with the price, percentage terms, adaptability, &c., and any other information that will give interesting writers an idea of the country. All this data will be placed on file at the board, and also with the management. Settlers visiting the bureau will thus be in a position to size up each district and in the event of their choosing on Mirror (providing, of course, that Mirror takes up the proposition) they would be sent direct to the local Board of Trade, whose duty it would then be to show landseekers around the district.

Newcomers to Edmonton will naturally migrate to this bureau of information, and it is certain that an exhibition of products that have been and will be raised in the Mirror district will give a most favourable impression on prospective settlers.

Each district will have to pay its share of the cost of upkeep, which will not be known until the several Boards of Trade have signified their willingness to support the undertaking.

A motion was passed endorsing the scheme, and Mr. McCormick in presenting the motion, emphasized the importance of the favor of the management. He could not guarantee the support of the Board of Trade of which he was president, and desired a little more information regarding the plan, prior to his laying the same before the citizens of Mirror.

A meeting for that purpose will be held shortly wherever citizens should be in attendance.

## CANADA'S MINERALS

The mineral production of Canada during the year 1912 amounted in value to \$144,031,047, as compared with \$135,048,236 for the previous year, an increase of \$8,982,275, or 6.55 per cent. These figures are contained in a preliminary report published by the department of mines.

The record of production by provinces shows that the relative importance of the several provinces is practically in the same order as last year. On-

tario has the largest output, with a value of \$50,679,662, or 40.75 per cent. of the total, a slightly higher proportion than in 1912. British Columbia is second, with a value of \$28,529,861, or 19.84 per cent. of the total, a ratio falling off; Nova Scotia takes third place, with a total production of \$19,305,545, or 13.14 per cent.; Alberta fourth, with \$13,614,622 or 9.6 per cent.; Quebec fifth, with \$13,303,649, or 9.24 per cent. Increases are shown in each of the provinces with the exception of Manitoba, Saskatchewan and British Columbia. The gold proportion of 1913 is estimated at \$16,210,131 which, compared with the previous year, shows an increase of \$3,067,337.

## Massey-Harris Farming Implements

Lister Gasoline Engines :: Melette Cream Separators

A leading firm of contractors names and addresses on application sent an expert to the Toronto Fair, 1913, to test the best Gasoline Engine on the grounds. After a careful examination and comparison with others he bought a LISTER 7 H.P. ENGINE because it found

## THE LISTER GASOLINE ENGINE

The most reliable and best value. It starts instantly—every time—without difficulty. Starting motor required to fill oil tank. Self-regulating at all loads. Attention needed when at work. Fitted with phosphor-bronze bearings throughout. Slight vibration, due to the engine, does not cause trouble. In a word, the best engine on the market (\$3.50 p. and a 7 h.p. in stock, come and see them.)

Also Agent for Massey-Harris Gasoline Engines and Cream Separators.

### GIGANTIC PETITION FOR TEMPERANCE

When the provincial legislature meets for its annual session in the fall of the present year, one of the largest petitions it has ever received during the nine years of its existence will be presented by the temperance people of the province, asking that an act, a copy of which will be appended, be enacted, providing for province-wide prohibition. This is possible under the act which was passed at the first session of last year, providing for the initiation or approval of legislation by the electors, otherwise known as the direct legislation act.

Under this act, any number of electors forming not less than 20 per cent. of the total votes polled at the previous general election, may present a petition to the legislature asking for the enactment of any proposed measure. If it cares to do so, the legislature may pass the act without amendment, or with only such amendments as do not constitute a substantial alteration. If this is not done, the act must be submitted to a vote of the electors.

The temperance people are relying on this act for the securing of province-wide prohibition. Conventions are being arranged for in the various constituencies. Literature is being cast broadcast and meetings are being held in all directions.

The vote will likely be taken some time next year. Under the direct legislation, if the legislature decides that the matter must be submitted to a vote of the electors, the wait for the election must issue not earlier than three months, and not later than ten months, after the close of the session. If the session ends, therefore, in October, as last year, the writ could not be issued before the end of January, in any case, with the election nearly a month later. Or the issue of the writ could legally be deferred till August, with an election in September.

The forms for petition to the legislature are now being prepared, and the work of securing signatures will be started in a few days.

Approximately one hundred thousand votes were cast at the last provincial election, so that it will be necessary for about twenty thousand names to be affixed to the petition. In other words, a gigantic petition a quarter of a mile long will confront the members of the legislature when they meet this fall.

### REDUCTION IN FREIGHT RATES

The following statement on the judgement of Railway Commissioners in the western rates case was made by Alex. McDonald, who was rate expert for the provinces of Saskatchewan and Alberta in this celebrated case. There has been a reduction of 7½ per cent., standard mileage rates between all stations in Saskatchewan and Alberta, and a reduction to the Manitoba basis of brick, stone, gravel, sand, lime, building blocks, etc., cordwood, fence posts, rails and poles. The reductions from Eastern Canada and Fort William on fifth-class freight which includes canned goods, sugar, syrup, soap, etc., nails, iron, building paper, and heavy hardware, will be as follows per car of 30,000 lbs.:

|                           |         |
|---------------------------|---------|
| Calgary, per car...       | \$24 00 |
| Edmonton, per car...      | 21 00   |
| Hurdisty, per car...      | 18 00   |
| Lethbridge, per car...    | 15 00   |
| Rogin, per car...         | 9 00    |
| Moose Jaw, per car...     | 6 00    |
| Swift Current, per car... | 6 00    |
| Maple Creek, per car...   | 6 00    |

The reduction in rates from Eastern Canada and Fort William on agricultural implements are, per car of 30,000 lbs.:

|                          |        |
|--------------------------|--------|
| Broadview, per car...    | \$4 00 |
| Edmonton, per car...     | 6 00   |
| McAlpine Hat, per car... | 8 00   |
| Glenichen, per car...    | 10 00  |
| Calgary, per car...      | 10 00  |
| Edmonton, per car...     | 10 00  |
| Lethbridge, per car...   | 12 00  |

There have been reductions ordered in rates on coal from Lethbridge and Cardiff, Alberta, also from Estevan in Saskatchewan. The reduction on these commodities will be more than 7½ per cent. For instance on coal with 10 per cent., the reductions on 25 to 50 families are from 1 to 1½ cents per 100 lbs.

The reduction on woodwood are, for 25 miles one-half cent; 50 miles one cent; 100 miles one and one-half cent, 200 to 500 miles 2 cents per 100 lbs.

There has been substantial reductions in the local grain rates which will help the consuming centres of Saskatchewan and Alberta. The reductions per car of 60,000 lbs. are as follows:

|                       |         |
|-----------------------|---------|
| 50 miles per car...   | \$18 00 |
| 100 miles, per car... | 18 00   |
| 200 miles, per car... | 14 00   |
| 300 miles, per car... | 27 00   |
| 400 miles, per car... | 36 00   |
| 500 miles, per car... | 54 00   |

### AS AN ADVERTISING MEDIUM

Arthur Brisbane, who is said to be the most highly paid newspaperman in the world and whose genius is very recognized, understood the truth of this statement when he said,

"The local newspaper in proportion to its circulation is, in my opinion, infinitely the most valuable advertising medium we have. The value of the country newspaper is based largely upon the fact that the man who reads it looks upon it as a neighbor and a friend, a personal acquaintance, and attaches to the printed statements and advertisements of the country newspaper far greater importance than the big city attaches to the statements and advertisements in the big city newspapers. As a friend talking to another about a certain kind of goods can influence a friend more than a stranger, so a country newspaper, standing on a footing of friendship with its readers can talk to them about goods for sale or any other topic and impress upon them more strongly than the big metropolitan newspaper, which is really a stranger."

Approximately one hundred thousand votes were cast at the last provincial election, so that it will be necessary for about twenty thousand names to be affixed to the petition. In other words, a gigantic petition a quarter of a mile long will confront the members of the legislature when they meet this fall.

## GOOD BALANCE WHEEL FOR GRAIN CULTIVATION

Renewed Activity in Industrial Enter-  
prises in Western Canada is  
a Healthy Sign

From various centres in Western  
Canada come accounts of renewed  
activity in industrial enterprises.

In particular the Great West Gas-  
light Company reports that its fac-  
tory in 1912 doubled its business as  
against 1911. The firm now employs  
160 men and women and has a yearly  
pay roll of \$75,000. Numerous travelling  
salesmen are on the road in Western  
Canada. The lines at present are  
shirts, overalls, pants and workman's  
clothing.

Mr. J. B. Griffith, Secretary-Treasurer  
of the Edmonton Portland Cement  
Company, reports that his company  
has enlarged its plant at Marlboro, Alta., by installing a  
fourth kiln, with a capacity of 500  
barrels a day. The plant will be over-  
hauled during the winter months. The  
company has 1,500 barrels of cement on  
hand with orders for delivery dur-  
ing the next 90 days.

In Saskatoon the plant of the North-  
land Milling Co., at Factors, is being  
equipped with machinery of the most  
modern type costing \$100,000. Work  
is stated to be progressing very  
favorably on both the flour mill and  
elevator. It is expected that the plant  
will be put in operation early in  
January.

In Medicine Hat and Radcliff nearly  
all the industries are running with a  
full staff, even under the adverse  
business conditions which prevail in  
various sections of the country. It  
is a striking fact that in the city of  
Edmonton Medicine Hat and Radcliff,  
where manufacturing establish-  
ments have been built up under the  
stable trade policy which has existed  
for the past twenty years, the existing  
of all classes of workers and the rate of  
unemployment have been less in evi-  
dence than anywhere in the West.

A same industrial development is a  
good balance wheel for the exclusive  
grain-growing policy which certain  
farmers have followed during the  
past few years. The army of harvest  
hands, who are required to handle the  
grain crops of the West, must find  
grain to eat. This is the reason for the  
growing up of industrial centres such as  
those referred to above, which will  
do more than anything else to solve the  
labor problem which the Western  
farmer has to contend with every fall.

## MILK AND CREAM

Home Market For Dairy Products Will  
Soon Absets Total Supply

Much has been written recently  
about the falling away in Canada's  
export trade in butter, cheese and  
other dairy products. Statistics show  
that the market for these products abroad  
is rapidly declining. The figures indicate  
that the farmer is finding the home market of  
greater advantage than the far away  
market of Great Britain.

It is not generally known that even  
Canadian dairymen, who are in the  
habit of sending their surplus milk to  
England, are finding it difficult to sell

their surplus milk to Great Britain.

The Dominion Dairy Commissioners  
estimate the home trade in dairy prod-  
ucts at \$105,000,000, while the ex-  
ports are about \$21,000,000.

It would be hard to convince the farmer,  
who is within a reasonable distance  
from a large city like Edmonton, Hamilton,  
Brantford or in the West; Calgary, Edmonton or Winnipeg, that  
the building up of these great industrial  
centres is not without advantage to all classes of the community. A  
large number of the citizens of Cal-  
gary or Edmonton brings one in touch with the  
big dairy development that is going  
on in the neighbourhood of every  
Western town. Instead of waiting  
a whole year for a cow to become  
a milker when getting the farmers  
of the West are getting a cash return  
every week or month by shipping  
their grain in the form of dairy and  
other products to adjacent markets.

The home market which can be had  
by all the farmer can produce at ever  
increasing prices, is not to be neglec-  
ted, and the farmer who caters to the  
home market is serving not only his  
own best interest but even Can-  
adian best. Expansion in industrial  
enterprises under the existing  
trade policy develops urban centres,  
the farmer's nearest and best home  
market. Factory workers must be  
fed, and the high prices of food  
are to be had in great measure  
by the artisan and his dependents.

## BEEF RAISING AND MIXED FARMING

The increasing value of our  
lands brought about by more  
increase of population means  
that grain growing, never pay-  
ing a high profit per acre, and  
always a chronic crop, must be  
augmented by some other system  
of farming to return some  
reasonable profits on capital  
invested. Even though  
land was not increasing in val-  
ue, the gradual shrinking in  
grain yields, which we must ad-  
mit, increasing trouble with  
weeds and drifting soil will ut-  
tilly force a change.

Exclusive grain-growing must  
give way to either specialized  
farming or to mixed farming.  
Mixed farming, which would in-  
corporate a system in which grain-growing would still play  
a part, appears the most feasible  
and natural course to follow.  
In mixed farming there are two sources that are open:  
the incorporation of milk pro-  
duction or beef production.  
Naturally sheep and hog raising  
would also be a factor.

Beef production in almost  
any part of the world is in a  
peculiar position at the present  
time. The world is short of  
beef. Millions that one or two years  
ago ate their share of meat  
now go without. Prices are  
high, and while the trust may  
be playing its part in boosting  
prices, the fact remains that we  
are short of beef cattle on the  
farmers.

Within the last decade a  
transformation in the cattle  
raising areas of North America has  
taken place. The ranges that produced feeding cattle by  
the tens of thousands have  
passed. The farmers of the  
central American states have  
yearly been paying higher prices  
for their feeders. Now they  
cannot get half what they want  
at profit-making prices. Western  
Canada is following close  
on the heels of the central states  
as can be seen as well as the pro-  
duction of finished range steers.

## BUILD UP OUR TOWN

There seems to be quite a  
jealousy among some business  
men's disposition to try to  
break down their adversary in  
their opposition. This  
petty feeling among rival  
businessmen is all wrong. The best  
way to build up a town is to  
stand by every man in the  
place who does right. When  
ever a man is doing well do  
not tear him down. All residents  
should be as partners, not  
opponents. In all localities  
the more business your  
rival does the more you will do.  
Every business man who treats  
his customers honestly, cour-  
teously and fairly will get his  
share, and the more business  
that can be secured by united  
efforts, the better it will be for  
all. When a town ceases to  
grow it begins to die, and the  
more people try to kill each  
other's business, the more readily  
will utter ruin come to all.  
Stand together for the advancement  
of every citizen. If a man shows  
ability to prosper do not pull him back through  
jealousy or weigh him down  
through cold indifference.

There was no Village Council meeting last Monday evening owing to Councillor Raymer's and Secretary-Treasurer Gardiner's absence in Edmonton at the trial, Marvin vs. the Mirror School Board.

Ferdinand Bourdelle, a broker of Winnipeg, said in Edmonton that instead of real estate booms in the cities of Western Canada in the future, there will be a lively demand for residence and business buildings. He also believes there will be a large influx of desirable settlers to the rural district of central and northern Alberta.

The English comedianne, Miss Lucy Webbing, late of St. James's, His Majesty's and Royalty Theatres, London; Arthur Roberts company and The London Follies; supported by Walter McFay, actor, traveller and raconteur, appear in Cook's Hall, Mirror, on Friday evening, May 15th. Don't fail to hear them. Reserved seat plan at Suggett's Drug Store.

**LOCAL AND GENERAL NEWS**

FRESH STRAWBERRIES for Saturday at Mifflin Cash Store.

Mr. and Mrs. C. H. Parrish left this (Friday) morning for Edmonton.

Mrs. Roy C. Sifis entertained a number of friends at her home last (Thursday) evening in honor of Mrs. C. D. Francis, who returns on Monday next to her home in Vegreville, Alberta.

The people of this locality were treated last Sunday to a mixture of snow, sleet and rain. A strong wind made matters worse, and it was one of the meanest storms we have had for some time.

The Mirror lodge of the Royal Neighbors will hold a "Proverb" social in the Library building on Monday evening, May 18th, starting at 8.30 sharp. Admission, Adults 25c; Children 10c.

Several baseball practices have been held this week and prospects are bright for a crackler-jack nine this year.

M. Meeklenburg, M. A., eye specialist, announces that he will petition the council to submit Bill No. 12, being a by-law to restrain animals from running at large inside the village limits, to the vote of resident electors. We surmise from the following, which is clipped from the Kilian News, that that town has no by-law, and in the event of the by-law being put to a vote in Mirror and turned down, we would be in the same predicament, and maybe worse:

"Variety being the spice of life residents of Kilian and its environs believe in variety, evidently, if one is to judge by actions, which are said to speak louder than words. We had the township fair last year, and a horse ranch and this year apparently it is to be used as a hog pen. Old souls with their Bitter perambulate around the townsite giving their offspring a little exercise and cooling practice."

By all means let us have the herd law; there should become restrictions placed on animals running at large within the limits.

\$7,000 in cold cash was the demand made by the court on George Wethliffe, of Toronto, by Miss May Davis, for trifling with her affections. She asked \$15,000 as bulk. The Judge gave a hot roast to the defendant that he is not likely to forget for some days. Young fellows about here had better be careful to live up to pledges either spoken or written.

Hugh Flood was arrested in Calgary last week and sentenced to three days in the cells in default of a fine of three dollars. He could not raise the money. On the day of his release, just as he was leaving the police station, he received word that he had fallen heir to \$60,000.

A little girl when asked by her teacher to distinguish between the human and the animal families, replied: "A brute is an imperfect beast; man is a perfect beast."

The Thoroughbred Stallion

**"BAIRD" NO. 1002**  
 will stand at E. Parby's ranch, 3 miles N. W. of Alix, for the season 1914. Mares taken to pasture. Terms \$15 insured in Fos. 27-8-4.

Owing to the fact that our supply of ready-prints are somewhere on the G. T. P. freight train between here and Regina, Sask., we are forced to issue THE JOURNAL in an abbreviated form this week. We trust our readers will bear with us this transportation problem is — !

Buffalo Lake is now clear of ice, the thunder and rain storm of last Saturday night doing the trick. Navigation on Buffalo Lake opens up somewhat earlier than usual this year.

Mr. and Mrs. Geo. A. Calvert have returned to Mirror after a trip to Winnipeg, Minneapolis and other points in the States. Up to a month or so ago they had the Imperial hotel here leased. They intend living during the coming summer on the Gateway place just south of the townsite.

E. Hutchinson is building a new house, near the school house.

Hans Kiesel is in Calgary this week attending the annual convention of the Alberta Board of Retail Merchants' Association of Canada. A. Oldring was also in attendance.

Mr. and Mrs. E. Parby, of Alix, were in town last Saturday.

Have your eyes tested by Dr. Meeklenburg, M. A.; in Mirror, on Monday May 11th.

The Calgary Aldermen are considering the proposition of doing away with the poll tax this year.

H. W. Panrucker, of the firm of Panrucker & Holland, Alix, who has not been feeling up to the mark for some time, has been advised by Dr. Graham, of Ponoka, to take a trip to the Coast. He leaves on Tuesday next, with Mr. Panrucker & C. B. During his absence the business in Alix will be managed by Mrs. A. G. Holland of Mirror. Mr. Panrucker's friends hope that the change of climate will have a most beneficial effect.

The Ladies' Aid were responsible for an enjoyable social evening held in the Methodist Church on May 1st. The supper was served in a novel way which made it very interesting. A short program was arranged after supper, but owing to some disappointment did not prove as successful as was anticipated. Those that took part were: Song, Miss Campbell; recitation, Norman Ray; dia, Lillian Pringle and Eunice Cook; rec, Margaret Lakey; song, Miss Campbell; rec, Mrs. Thomas. A vote of thanks was passed to the Ladies Aid for the very able manner in which the arrangements were carried out.

F. Ulrich, of Broadview, Sask., is spending a few days with his sister, Mrs. Geo. Robinson and Mrs. C. D. Francis.

Moose Jaw, Sask., Presbyterian Course, Daily Journal: "But the greater part of this most enjoyable programme was by those talented professionals, Miss Lucy Webbing and Mr. Walter McFay, who in one act play, sketches and playlets gave as much enjoyment as many a whole cast of actors would in more pretentious comedy or drama. Every bit of acting they attempted was meritorious. Miss Webbing and Mr. McFay are well of mirth and Mr. McFay is unique in his comic style." This latter in the opinion of the late Dr. Drummond, showed great genius, and in the humorous passages he was simply faultless. These versatile artists will long be remembered by those who heard them in Moose Jaw, and they have carried away with them the high appreciation of those who were privileged to hear them last night." In Cook's Hall, Mirror, on Friday evening, May 10th.

This system would create competitive rivalry among resident householders and bring about a more thorough cleaning up than would be the case if there is no general and united effort made and the matter simply left to each individual separately to comply with the orders of the council by doing only that which is absolutely required within the time limit set.

It should not be a burden to

M. D., C. M.

**PHYSICIAN AND SURGEON**  
 Dr. Meyer of Mirror will in future after Dec. 31 have his office at his residence. Persons requiring his service will find him at his residence south of English church after above date.

**MOTHER'S DAY, MAY 10**

The object: To honor and uplift motherhood, and to give happiness to the best mother that ever lived. "Your mother."

Observation: Loving remembrance of your mother (or her memory) through some distinct kindness, visit, tribute or letter.

Bridge: A white carnation, always a white flower, typifying purity, beauty, love, charity and fidelity.

Mother: That precious name, forevermore the same.

Earth's sweetest word! Though ages past have flown, No sound was ever known like that dear name alone.

Or ever heard: Through the long hours of night, When tears bedimmed her sight, Our pain she soothed;

Never of self a thought! Always for us she wrought; With circless love she sought Outwards to soothe,

From childhood's earliest day, She guarded us in every way, Day and night, tenderly.

She shared our every woe, Each cherished fondly did know, Heard every whisper low Of childish prayer.

Wondrous, oh, wondrous love, Most like to that above, She gave alone!

Shame! that our lips we seal From loving words which heal Each heartache, and reveal Love oft unknown.
